Only through MNsure can you qualify for a tax credit that can lower your monthly premium. You may also qualify for additional savings through cost-sharing assistance which reduces the amount you pay at the time of medical care. Medical Assistance and MinnesotaCare are also available through MNsure with comprehensive benefits.

Medical Assistance

Medical Assistance (MA) is Minnesota's Medicaid program that covers many low-income people, especially children and pregnant women. There is no monthly premium for Medical Assistance. Eligible individuals can enroll in Medical Assistance year-round.

MinnesotaCare

MinnesotaCare is for lower income Minnesotans who don't have access to affordable employer health care coverage and are not eligible for Medical Assistance. The maximum premium is \$50/month per person. Eligible individuals can enroll in MinnesotaCare year-round.

Qualified Health Plans (QHPs)

Tax credits are available to many individuals and families who do not have access to affordable employer health care coverage. To qualify, private coverage must be purchased through MNsure. The tax credit amount depends on your income and the cost of insurance in your area.
